## STUDENT REFLECTIONS

I felt heard while I was discussing my future aspirations with Ms. Johnson. She offered me advice that could help me in life and potentially keep me out of trouble. She was open to the way I felt my dreams regarding my career and my interest in hobbies like writing. I felt respected and understood. I enjoyed our discussion.

## TEACHER REFLECTIONS

I noticed that Chris shared his goals with me and listed what was most important to him. I learned that Chris has a passion for music. He wants to bring music into his academic goals.

I enjoyed how well Chris showed respect with eye contact and active listening.
